

Anxiety, Depression, Medication,  
Treatment! (Q&A Information Session)  
Thursday 27<sup>th</sup> June 2019

Anxiety Disorders Association of Victoria presents  
“QUESTIONS AND ANSWERS”

Anxiety, Depression, Medication, Treatment!  
An evening with Dr Mukesh Haikerwal, General Practitioner

**This information evening provides an opportunity to have your questions answered...**

**Please come prepared with specific questions as this session is an informational question and answer format. Dr Mukesh Haikerwal will welcome every question asked and answer them to the best of his ability. It might be a good idea to write down your questions beforehand – you know what it is like when you forget, especially when you are anxious!**

**About the presenters**

**Mukesh Haikerwal** is a General Medical Practitioner practicing in Altona North. He is in a group teaching and training practice where he has worked since 1991 with his wife Karyn Alexander.

They worked with a partnership of 9 to build the “Integrated” North Altona Health Hub – Circle Health ([www.circlehealth.com.au](http://www.circlehealth.com.au)) and merged two local practices under the new Altona North Medical Group ([www.anmg.com.au](http://www.anmg.com.au)).

Part of their vision is CIRQIT Health (Community Innovation Research Quality and Information Technology – [www.cirqithealth.com.au](http://www.cirqithealth.com.au)) built on the upper floor.

The practice has a significant role in supporting patients needing psychiatric and mental health care in the area coordinating care with members of the Mental Health professionals’ network and beyond.

Mukesh has been the Federal President, Vice President and State President of the AMA. His career has involved national policy development, including optimisation of healthcare through IT (eHealth reforms). Notably, he worked for the Australian Prime Minister on the National Health and Hospital Reform Commission formulating a future vision for Australia’s health. Mukesh was awarded the Order of Australia in 2011 for distinguished service to medical administration, to the promotion of public health through leadership roles with professional organisations.

His drivers are to see that systems “do the right thing” for patients and practitioners, never lie, never sell ‘the Emperor’s new clothes’ and always hold administrators accountable.
